He came to St. Paul's, Norfolk, as rector, twenty-four years ago, having previously served churches in Richmond county, Virginia.

CANNING FACTORY FOR THE CITY

Efforts Are Being Made to Get a Female Seminary—\$15,000 Desired to Secure the Institution—Toano to Buy a School House.

(Special to the Daily Press.)

WILLIAMSBURG, VA., Oct. 3.—The James River Lumber Company has been organized with a maximum capital of \$50,000, with the principal office in Williamsburg.

The officers are: Uriah W. Dickerson, of Salisbury, Md., president; W. Wimbrow of Parsonsburg, Md., vice-president; J. Roscoe White, of Salisbury, Md., secretary; S. King White, of Salisbury, Md., treasurer. The company has bought many acres of land with standing timber on the peninsula, and will begin at once the operation of sawmills on the several tracts.

Attorney B. D. Peachy left this morning for Richmond to procure the charter from the corporation commission.

The people of Williamsburg and surrounding counties are responding liberally to the \$15,000 required to secure a female seminary in this city. If \$15,000 can be secured the Norfolk Presbytery will supplement the sum, and expect to open a large school here next fall. About \$8,000 has been subscribed.

Students continue to matriculate at William and Mary and there are many more on the roll than at the same time last year. The personnel of the student body is also above the average.

The citizens of Toano, in James City county, contributed in three days over \$4,000 to buy a building for a graded school at that place. This afternoon in Mount Vernon church, in that town, there was an educational meeting, and plans were discussed.

Frank Haven a young white man, was arrested at Toano on the charge of acting as a labor agent without license. He was trying to get men to leave one railroad contractor to work for another. The charge was not pressed, but he was tried for trespass and fined \$10 and costs, in default of which he was sent to jail. He is from New York.

An effort is being made to locate a large cannery and peanut factory here. The promoters are trying to raise a bonus of \$2,000 to secure the plant.

COUNTRY'S WEAKNESS GLARINGLY EXPOSED

Merchant Marine League Calls Attention to the Fact of no Ships to Carry Troops.

NATION AT MERCY OF EUROPEANS

Cubans are Giving Up Their Arms Willingly—Rough Rider, Who Was a Rebel, Says Most of the Fighting That He Saw Was Done by Game Cocks—Magoon, Gets Taft's Place.

(By Associated Press.)

CLEVELAND, O., Oct. 3.—The Merchant Marine League of the United States, through its president, Harvey D. Goulder, of this city, issued a statement today in connection with the Cuban situation and deploring the necessity of the employment of European steamship for the transport of troops. The statement says:

"In the midst of prosperity and productivity unparalleled in history, the United States, strong in every other direction, having to transport less than 6,000 troops with munitions of war to Cuba, after weeks of anticipation and preparation, finds itself obliged to charter a British steamship and a German steamship at the threshold of actual performance.

This because we have not a merchant marine, and therein the auxiliaries so zealously provided by Great Britain, Germany, France, Norway, Japan and even Spain, not one of which would for a moment countenance such a condition.

"When it is added that the over-sea transportation of the United States is among the chief factors of the world's commerce, and the earnings upon which go largely to enable these other nations to maintain auxiliaries, including naval reserves, can any reason exist why a condition so humiliating and so dangerous should not be remedied by prompt and comprehensive action by the congress.

"The modern policy of the maritime nations of the world, now being urged in congress, would care for this condition, besides its peaceful trade victories—no less renowned."

Cubans Give Up Their Arms.

HAVANA, CUBA, Oct. 3.—The alacrity with which the rebels are laying down their arms is the greatest sur-

prise the provisional government has yet encountered in its smooth working program.

Harvey says that most of the fighting he had seen was between game cocks. About ten per cent. of Guerra's men carrying fighting cocks tied to their saddles.

Governor Taft has received a dispatch that the threatened disturbances in Cienfuegos have been obviated by the withdrawal of the insurgents from that city.

This subject was the principal one upon which Chief Engineer Stevens and chairman Shonts, of the commission, worked during the six weeks that the latter spent on the isthmus. It has also been the chief matter to engage Mr. Shonts' attention during the last two months. It is not probable that a decision will be reached for some time.

A decision in the matter of awarding contracts for the supply of Chinese coolie labor for the Panama canal may be postponed until after the arrival of Secretary Taft from Cuba.
